Hi Debbie,

The groundwater data evaluated in the Site 10 RI/HHRA/FFS is attached. Table 1 is all of the data. Table 2 includes detected constituents with exceedances of the MCL or background UTL highlighted.

Feel free to call me if you have any questions or concerns.

Thanks

No problem Deb, Tim is here with me. I will provide the data in Excel form.

Thanks!

Paul and Tim,

It was great seeing you all last night - yes, I finally did make it home by 11pm (stopped and chatted with an old friend on my way out of town). I have a request from Hasan Keceli, our statistician, on the Site 10 issue. He is asking for the actual groundwater data from Site 10. I have the raw data .pdf file that Donna had created when we first started this madness, but I was wondering if we had the gw data in a more friendly form. If so, could you please send this to me?? THANKS!!
